How Does Denticon Automatically Match My 835 Files?
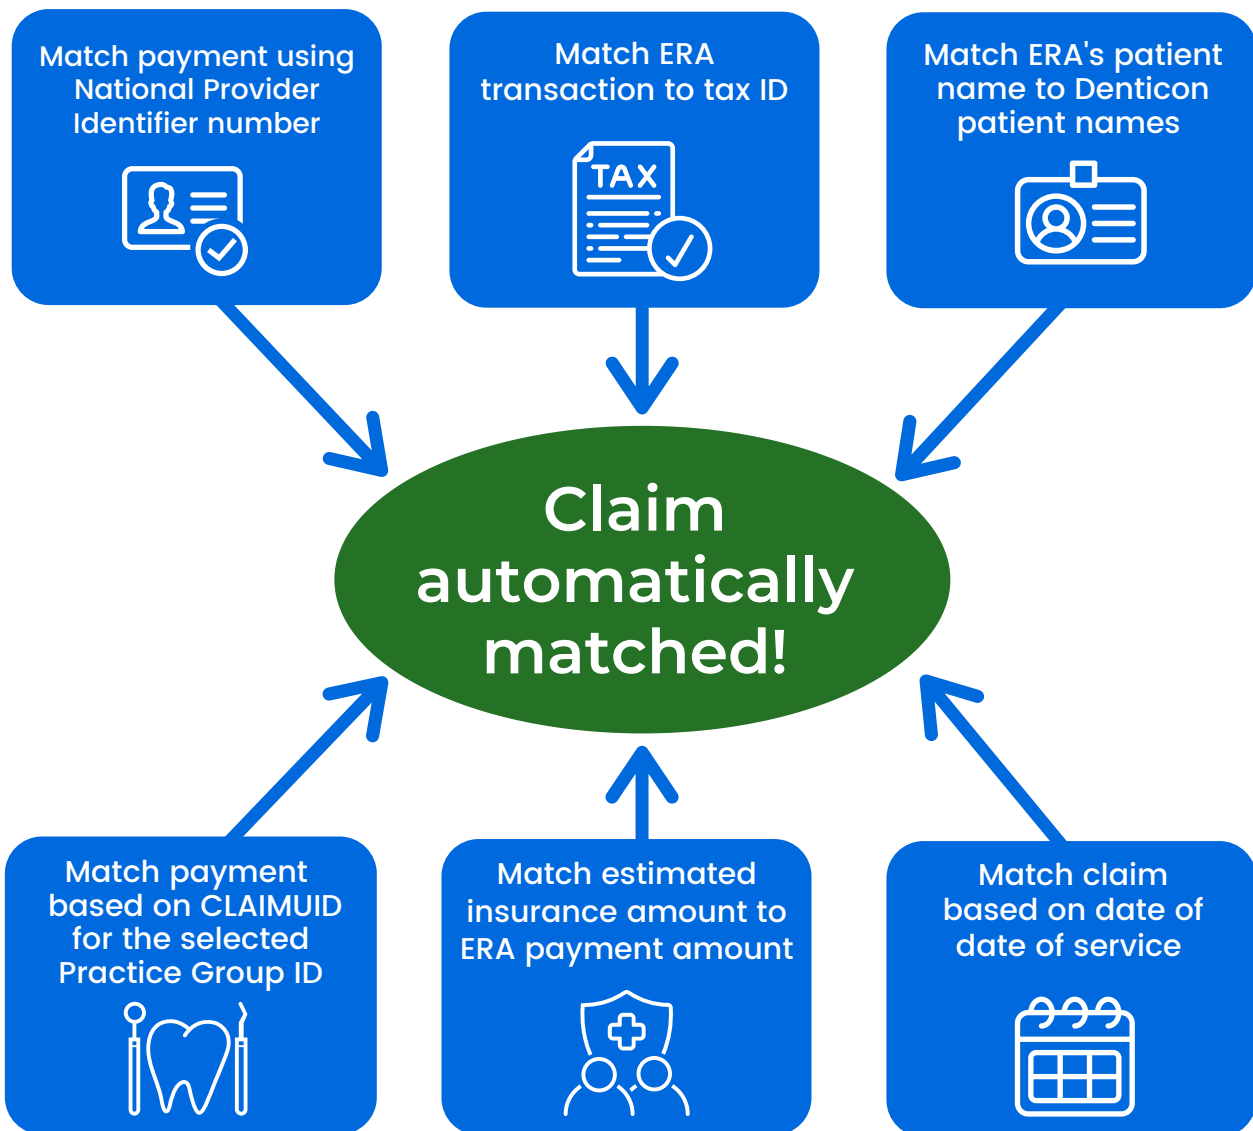

By using its "matching logic," Denticon can automatically match up to 90% of your 835 files!

Match payment using National Provider Identifier number

Match ERA transaction to tax ID

Match ERA's patient name to Denticon patient names

Claim automatically matched!

Match payment based on CLAIMUID for the selected Practice Group ID

Match estimated insurance amount to ERA payment amount

Match claim based on date of date of service

Top 4 reasons why Denticon can't find a match:
- Nothing to process yet
- No patient match found
- Duplicate patient
- No claim match
