## Expand the Power of Denticon with Custom Add-Ons

### Denticon Practice Analytics

#### Drive Practice Growth with the Power of Data

Make data work for you, not the other way around. Empower your dental offices with actionable data and insights using the native analytics tool within Denticon.

- Unlock a holistic view of your practice's performance, streamline processes, and make informed decisions
- Identify untapped growth opportunities, increase production, and accelerate collections using actionable data insights.
- Ensure data consistency and avoid disruptions associated with manual reporting or managing multiple systems

### Denticon Pay

#### A Comprehensive Payment Acceptance Solution

Does your payment system match with the patient experience you provide? Securely and efficiently accept payments and watch profitability soar through optimized payment collection.

- Accept all major forms of payment and create customized payment plans for your patients
- Connect multiple devices to one workstation, allowing multiple payments at a time
- Reduce risk with tamper-resistant encryption keys backed by the PCI Security Council
