

Introducing New & Improved Denticon RCM

STREAMLINE YOUR OPERATIONS, ACCELERATE PAYMENTS, AND DRIVE GROWTH

Growth-minded practices need a new approach to revenue cycle management—one that can unify data across locations, make RCM less labor-intensive, and accelerate payments so their organizations can thrive financially and operationally.

Denticon RCM simplifies revenue cycle management by unifying tools into a single cloud-based solution. Through advanced API integrations, it ensures real-time, accurate data, clarity in the process, and speed to payment. By empowering RCM teams with automated workflows and delivering data-driven insights to leadership, Denticon RCM supports organizational growth and enhances the patient's experience.

Unify your revenue cycle management with accurate data and automated workflows for faster payments and enhanced efficiency.

Integrated | Standardized | Scalable | Automated | Open

Explore Denticon RCM

Denticon RCM optimizes revenue cycle management for RCM teams, IT teams, patients, operations teams, and executives.

- ✓ **RCM TEAMS:** Automate manual tasks and optimize team resources for billing, claims submission & payments.
- ✓ **IT TEAMS:** Manage accurate data flow with seamless integrations across top third-party RCM solutions.
- ✓ **PATIENTS:** Increase transparency with patients throughout the RCM process with fewer unexpected costs.
- ✓ **OPERATIONS:** Simplify workflows and improve efficiency to lower operational resources and costs.
- ✓ **LEADERSHIP:** Standardize data with real-time insights and workflows that are robust enough to scale with the growth of your organization.

Denticon RCM ensures accurate data and automated workflows for faster payments.

- ✓ **Denticon Pay**
Streamlines patient payments and increases payment security.
- ✓ **RCM Reporting**
Report across all locations for robust RCM insights, including ledger, insurance, and claims.
- ✓ **Payment Posting & Denial Management**
Efficiently track payments and denials from insurance companies, EOB, ERA, and patient payments.
- ✓ **RCM Task Manager**
Empower your RCM team with tools to manage and track outstanding claims and patient AR.
- ✓ **Tiered Fee Schedules**
Scalable fee schedules to update only once and assign to plan, provider, carrier, and office.
- ✓ **Enhanced Eligibility Verification**
Let APIs automatically verify eligibility and coverage, minimizing phone calls to carriers.

“ We’re able to report data on a daily, monthly, and year-to-date basis. We can check on collections, revenue generation, insurance benefits, where claims stand in terms of billing or aging. It’s very user-friendly, and by making it easier and faster for the team, **we’re able to provide a better patient experience.** ”

KARLA MORALES | Vice President of Revenue Cycle Management, West Coast Dental Services
